

# Explore the new DermaLab® Combo 4

Fourth edition of the most  
professional tool for in-depth  
skin analysis

## Maximize your success

The DermaLab® Combo 4 is a professional and flexible instrument that allows you to meet every need for skin measurement.

Let the DermaLab® Combo 4 support your professional work and maximize your success by providing sturdy precision measurements and data you can rely on.

## The concept

Customize your DermaLab® Combo 4 by selecting the specific parameters relevant to you. Choose between the 12 probes and combine up to 9 parameters in one device, which is delivered complete with the selected probes, main unit, and software.

This tool combines the perfect mix of measurement parameters in one professional tool.

## This is NEW

- A new elegant and more exclusive design
- New probe holder function
- The probes are proudly displayed on a row
- Completely upgraded software
- Intuitive and modern user interface
- The new Colori Probe also measures gloss and ITA°

## Skin analysis powerhouse

All the parameters you need  
in one elegant instrument
